SOURCE EVALUATIONS ARE DEFINITIVE APPRAISAL OF CONTENT IS TENTATIVE

1. The original government investment plan drafted for the year 1955 had to be redrafted in January and again in February 1955. This was necessary because of the bad results of the government economic planning for 1954 and because of increased armaments demands by the Soviet Union. 25X1
2. One of the changes caused by the redraftings of the investment plan was a complete suspension of the majority of new investment projects for 1955. Only a few constructions which had actually been started in 1954 can be completed in the current year.
3. New investments in 1955 are being authorized only in exceptional cases, mostly in the case of projects which directly concern security and which have obtained governmental approval. 25X1
4. Construction of dwellings has also been stopped. There is a great shortage of every kind of building material and of materials for the repair of dwellings.
